Network Security Awareness Training

Network security awareness has recently been heightened due to the release of the Conficker worm, Adobe Acrobat vulnerabilities and other viruses, as well as regulatory changes. Genesis offers two and four hour Network security awareness training that is essential to enforcing security policies or complying with regulations.

Company News

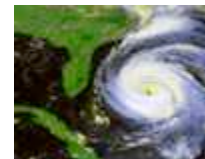

"Once a new technology rolls over you, if you're not part of the steamroller you're part of the road." - Stewart Brand

Dear Michael,

Take a moment to review some of the topics in this newsletter that will surely help your business. For a list of our complete solutions and services please visit our updated website by clicking on the logo above.

Disaster Recovery - Are you ready for Hurricane Season?

Forecasters are predicting an "above average" 2009 hurricane season. Although this may not translate into an above average chance that your business will be affected, it may be time to re-evaluate your business's capability for handling a disaster. The two fundamental questions that need to be addressed are:

How much information can we afford to lose?

How much time can pass before we need access to our information?

You can answer both questions with confidence when implementing one of our Backup Disaster Recovery ("BDR") turnkey solutions.

Video Surveillance - Protecting your Business

If you have ever been the victim of theft or vandalism, then you already know the difficulty in replacing assets or repairing damages. Add the time lost in dealing with local authorities to apprehend the perpetrator, which may never happen in some cases, and the costs can increase substantially.
